

Coronavirus Guide for Host Families

Sep 2022

Cultural Experience England

Our responsibilities We are responsible for keeping you and your student safe and healthy. We will update students, host families, agents and schools in the event of any change to CEE's normal procedures.

Advice and information We will monitor and follow government guidelines closely. We will also seek advice from the governing body AEGIS. For the government's current advice, please see <https://www.gov.uk/coronavirus>

Arrivals and departures will happen as normal. Currently, there are no travel restrictions to be followed: [Travel guidance](#)

Symptoms If your student develops Covid symptoms, they need to follow their school's guidelines on attendance. Usually, where symptoms are mild, students can still attend school wearing a face covering. Only if they have a temperature or feel unwell should they stay at home.

Please inform the school if your student has to stay away due to Covid.

Asymptomatic young people can attend school as normal.

If an adult in the home is infected, it is advised that they stay at home and keep a distance from others.

More information about infections and symptoms can be found here: [People with symptoms guide](#).

CEE Visits We have now resumed our face-to-face annual visits to all host families. If we haven't been to your home yet, expect us to make contact in the near future.

Date: 14 Sep 2022
